

Sentinel Project Analyses

2026-06-03

Observations

At WSU, 175 sentinel plants were monitored through 394 observations.

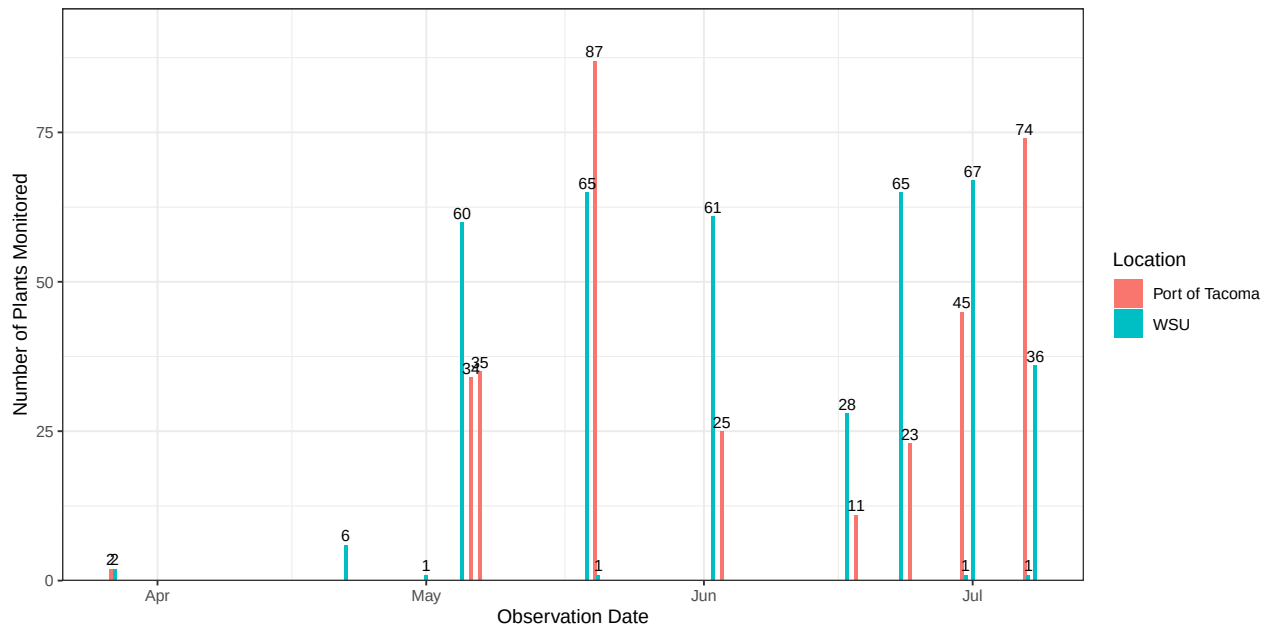

At the Port of Tacoma, 161 sentinel plants were monitored through 337 observations.

Data Visualization

Observations by date

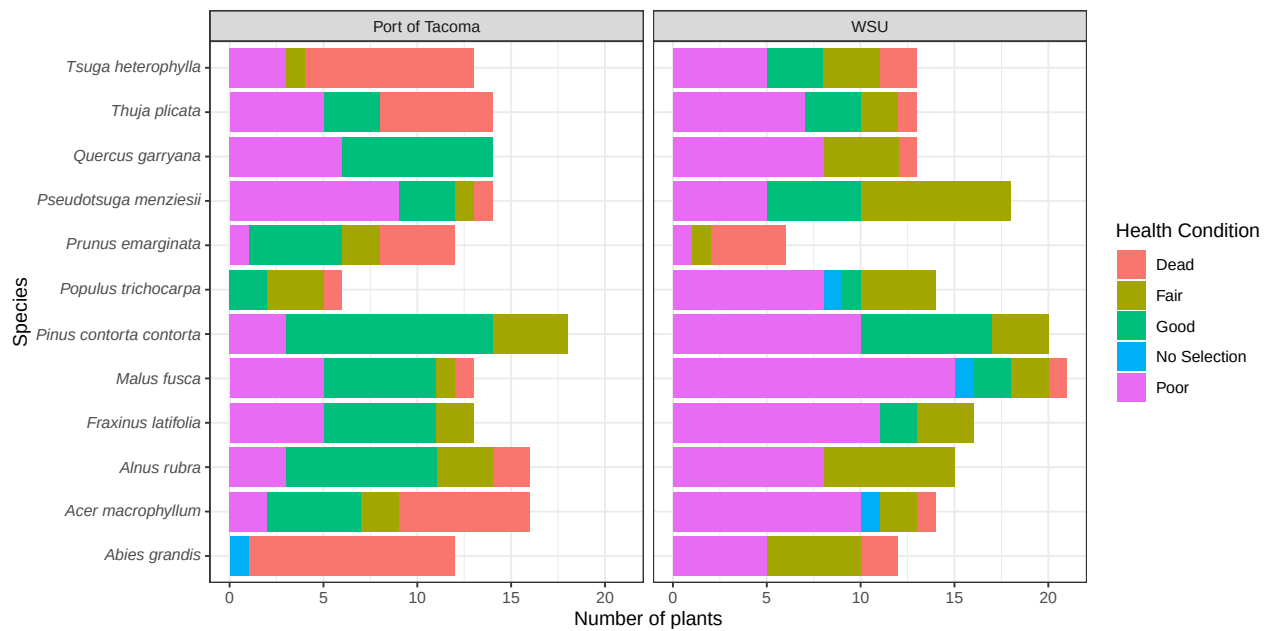

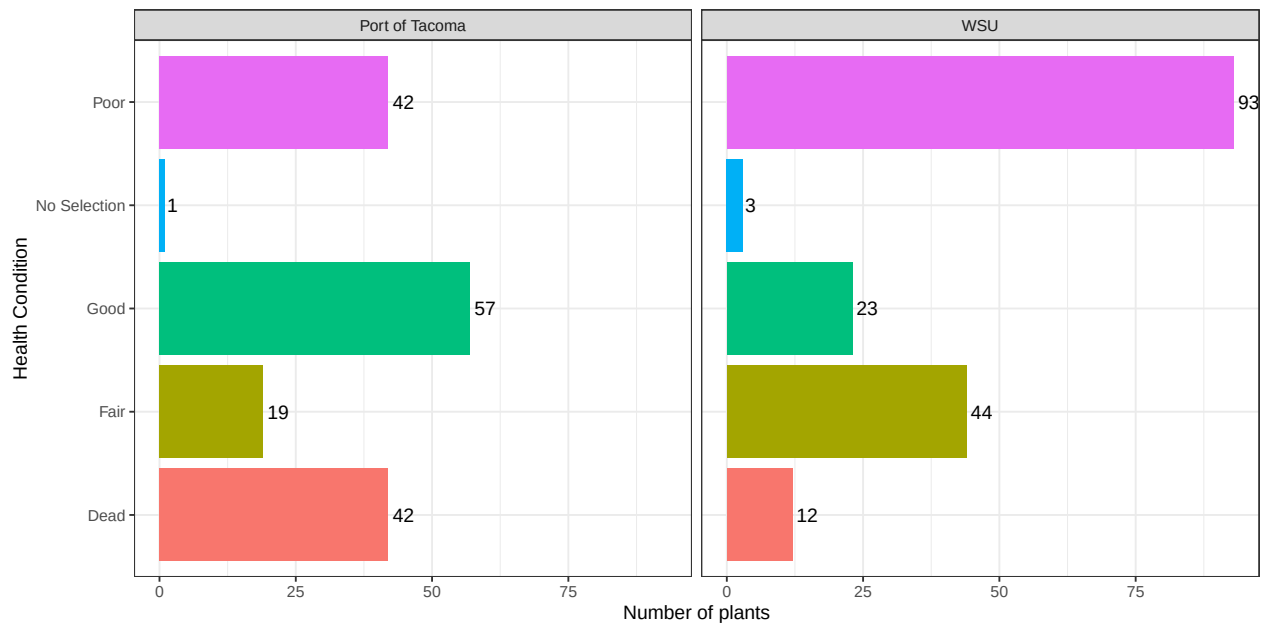

```
## Warning: Removed 1 row containing missing values or values outside the scale range  
## (`geom_col()`).
```

```
## Warning: Removed 1 row containing missing values or values outside the scale range  
## (`geom_text()`).
```

Most Recent Data

The plots below filter out the first observations of each plant if it was measured more than once so far this summer.
